RE: Giuseppe Puglisi
DOB: 06/02/1950

To whom it may concern,

Dear Sir/Madam,

This letter is to inform that Mr. Puglisi has been under our care since August of 2014. Since that time we have been treating him for multiple complaints which included chronic low back and mid back pain, lumbar radiculitis and knee pain. In addition, he has multiple medical comorbities which affect his overall well-being and quality of life. His overall condition, although currently stable, has been worsening over time. Since he has been under our care, he has been hospitalized multiple times for various medical reasons and is currently on chronic opioid medication regimen which is keeping his chronic pain at baseline.

Due to his multiple pain generators and overall poor health, Giuseppe requires assistance in the activities of daily living, such as dressing, grooming, taking showers, ambulating, transferring and preparing meals. During pain exacerbations, he also requires assistance with taking his regular medications in a timely manner. His wife Irina Puglisi is currently assisting him with the above activities, however she had to quit her job to be able to do so around the clock.

If you have any additional questions please feel free to contact the office at 347-252-6732.

Thank you.

Sincerely,

Mila Mogilevsky, DO
Yuliya Paritskaya, PA-C
